September 2011

**WORK EXPERIENCE**

**Total Construction & Equipment, Inc.**  
Field Engineer – Assistant to Superintendent: High Risk Work Approval Requester / Project Planner  
Member of the Minnesota & North Dakota Laborers Union: Local 563  
August 2014 – Present  
As the Project Planner in the LEAD Craft position I create and schedule plans and steps for all crafts involved using MAXIMO our project managing and planning software, which stands as a workflow and sequencing platform in order to provide proper communication, consistency, work detail, estimated costs and durations for base work, as well as providing an approximate location for each and every job being performed. As the Project Planner in the Sub-Craft position my duties are to modify manpower if needed to all sub-craft job steps as well as schedule and modify the status of work being performed throughout the duration of the job. In both positions (LEAD Craft and Sub-Craft) the role of project management comes into play whether a multiple craft or a single craft crew is needed to complete a job. The duties that come into play require walk-downs, planning, rescheduling, contacting crafts for change of status, and the process of closing out task work as job progression dictates so the job is then turned over to the coordinator.

**Anthropologie Display Coordinator**  
February 2012 – September 2013  
The Display coordinator is a full time position (40 hours) that is responsible for the beautiful displays in the store, as well as managing and mentoring multiple display interns each quarter.

**Street Factory Media Screen Printer / Project Manager**  
March 2011 – January 2012  
Provided In-House and On-Site screen printing for both local and out of state events / promotions for major companies such as Regions Hospital, XGames, Metal Mulisha, Intermedia Arts, In The Groove Music, Ford Motor Company, Street Factory Media, and more. Also took on the role of project manager with select clientele during street team events, parades, and promos.

**Fischer Edit Media / FX Design Intern**  
October 2011 – March 2011  
Designed in-house promotional graphic design work, and collaborated with motion graphic designers within the areas of brainstorming, layout, and typography resulting in a flawless process to reach our clients expectations.

**Neighborhood Development Center Design**  
May 2010 – July 2010  
Met with NDC clientele to provide them with a better understanding of how totern advertise, brand, and market their businesses during the crucial decrease to business along the construction zone of Saint Paul's University Avenue light rail expansion. We as NDC designers played a major role in keeping these small businesses's alive through conceptual marketing strategies, and extensive graphic design services that effectively reached our clients customer base.
